

# Latin America Region

PLC Project

# Project Outline

Class, you are about to embark on a journey. A journey filled with learning. As a PLC group, adventure into the unknown as you explore the physical and human geography of five Latin American countries. Working as a group, complete the required tasks to document your expedition.

# Main Country

For your main country, create a “Google Slides” presentation with 5 slides focused on the 5 W’s.

1. Mexico
2. Brazil
3. Argentina
4. Panama

# Main Country Slides Presentation

1. Work collaboratively.
2. Must haves:
  - a. Images explaining your information
  - b. A Map
  - c. Cultural Aspects including examples of Language
3. Use the “Research” feature for all things being inserted onto slides.

# Neighboring Countries

Find 4 neighboring countries and create a project demonstrating an element of human or physical geography in that country. Each person will be responsible for one of the project options.

# Project: Minecraft

On a flat-world, create a human or physical geographic feature that explains an aspect of life in that country.

- Must submit a blue-print design.
- Must be original.
- You will build in *Creative*.

# Project: Prezi (or another option)

Create a unique Prezi explaining one of the neighboring countries your group selected. Focus on several cultural aspects.

- Use a creative template.
- Include a few spins and hides.
- Include a video showing *Culture*.

# Project: Google Earth

Take our class on a virtual tour of your neighboring country. Pin 5 significant sites that explain the human or physical geography.

- Have a notecard of information explaining the significance of the site selected.

# Project: Storybird

Create an exciting story retelling an aspect of culture in one of your neighboring countries. Select images that relate to your story.

- 10 Pages Minimum
- Include details about the culture.
